“Depends on who you see.”

“Between good and average.”

“Not many issues apart from with prescriptions. Husband had to wait for 1/2hr to collect.”

“Very lucky here.”

“Very lucky to live where I live. Impressed with this surgery.”

“Very pleased.”

Other Comments Received

- “Really, really good. Couldn’t ask for any more. (I only attend infrequently).”
- “Only lived in the area since July. There are a number of surgeries I could have gone to but listened to neighbours about recommendations for this one. With previous surgery for last 40 years and sorry to have to leave them. This surgery has trainee doctors and patients offered to talk to them about particular health issue.”
- “All areas excellent.”
- “Always keep in touch with me if they need to see me.”
- “I think we are very lucky and I’m glad I come to this practice. The doctors are incredible.”
- “Very lucky to have this practice and the way it is run.”
- “It’s a great practice, won’t find a better one.”
- “There were discussions about having a dentist at the practice. That would be a good thing.”
- “Great practice. Everyone here is very friendly. Always seen doctors with my three children. Ante-natal care excellent.”
- “Really pleased with the service I get here.”
- “The older you get, the further away it seems - you always have to have a car. (Recognise it is my choice where I live).”
- “It is sometimes slow to get a referral to hospital when you know you need to go. This could be a bit quicker.”
- “Doctor too eager to go on hospital physio advice about returning to work. Refused to give sick note without even seeing patient or seeing the result of a scan. Scan showed compression of spinal cord and patient can’t work. Unnecessary anxiety caused. Another doctor has been really good and has made an urgent referral to the QE for neurosurgery.”
- “My Mum is in a wheelchair and the surgery deliver her tablets - a greatly valued service.”
- “Very happy with everything and everyone.”
- “Not had to come to the surgery much as I haven’t needed to.”
- “Receptionists have a lot to do - lots going on, (phones, prescriptions etc.)”
- “Extremely attentive - allow you to talk through what is bothering you. They are very thorough. First class care.”
- “Blood test results - would be better for GP surgery to ring you with results instead of patient having to ring them.”

Recommendations

- The practice has received some excellent feedback and comments in a number of areas. The highest of those being for cleanliness, GPs and Nurses, with all but two questions receiving the highest rating of “excellent” for more than half of those questioned. A clear recommendation is to maintain those very high standards.
- Some patients were unaware of the online booking system and whilst it is well publicised, continued efforts to help people make best use of this facility would be useful to both practice and patients.
- A couple of people with some movement difficulties were observed struggling with the front doors, which are not currently automated for opening and closure. Whilst help is always at hand, this could be a small improvement the practice may want to consider.

Surgery Response

Response by Venetia Reville, Practice Manager

It is always lovely to hear that all our hard work is appreciated by the majority of our patients. We aim to maintain our very high standards! We are currently looking at additional ways to advertise our online service so all of our patients are aware and have the choice. Regarding the automated front doors, we fully take on board the comment and would love to install automated doors, but the financial implication would be down to the practice and we simply cannot afford the cost. Staff are always on hand to help our patients.
