# About this report

This report details experiences of community services shared by our community for the period January–November 2016. The comments have been collected and analysed using the Healthwatch Knowsley Feedback Centre.

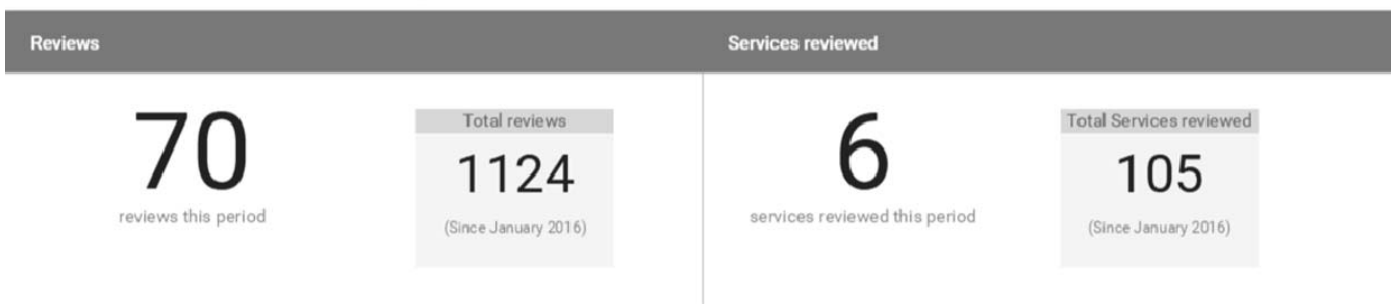

All comments are the actual words of the people who shared them and have not been changed in any way.

The report will be shared with:

- NHS Knowsley CCG
- Knowsley Metropolitan Borough Council
- Care Quality Commission
- Local Community via our Website
- Healthwatch England
- NHS England
- Service Providers

Podiatry		
<p>Have had a difficult infection in a small toe for a very long time. Podiatry have been exceptional in their treatment of this. They offered ideas why this was continuing to happen. An x-ray was suggested (this was clear). The Podiatrist emailed the Dr's and requested department at Aintree look at footwear, new shoes have now been made. The Podiatrist suggested I spoke to the Rheumatology department. They noted that it is a possibility that the Methotrexate (medication of Arthritis) can cause infection. They suggested leaving the medication for 2 weeks - the results looking very promising!!</p> <p>I cannot thank Diane Boyce enough for her persistence in this matter. The help and care I have received has been second to none.</p>

Coniston		
<p>A bit of the staff is narky and nasty, but the dinner ladies and the co-ordinator are brilliant and very helpful so is the ward manager. But Dr is unhelpful and does not sign the forms when he is supposed to and he has discharged when I have told him I am going to kill myself if he lets me go and let me go and I nearly died. (April 2016) (Healthwatch responded to this April 2016)</p>

Husband broke hip. Feedback on Whiston		
<p>Husband broke his hip on 12th December last year whilst visiting family. He was sent to Chesterfield Hospital and was operated on. He came home to Huyton on 24th December because no beds were available in Whiston. He went once to Nutgrove Villa for physio, they advised that home visits were more appropriate for his needs. Did not hear anything until the end of January. Spoke to Healthwatch, that afternoon there was a meeting and I got a phone call to say that there was a cancellation and physio would be out to do an assessment. Really pleased, my husband was discharged yesterday after wonderful treatment.</p>

Halewood Walk in Centre (Halewood Health Centre, 5 Boroughs Partnership) 2016-07-04 18:00:51

Attended walk in

I attended the walk in centre because I was worried I had shingles I waited a short amount of time in the waiting room and then was seen by a nurse who asked me a number questions. She then looked at my rash on my shoulder and confirmed that I had shingles. The walk in centre did not prescribe medication so I was advised to book an appointment with my gp if pain continued.

I attended the Walk In Centre with my mum

I attended Halewood Walk In Centre with my mum who had a tooth abscess. The walk in centre could not treat mum but the staff were lovely and gave us a number to ring to find an emergency dentist. This was really helpful as we were unsure were to go. After ringing the number we found a dentist in St Helens who were brilliant.

Short wait, first class medical assistance		
I had a problem caused after a holiday in Greece. I spoke initially to a local pharmacist, explained the problem and he suggested that I visit the clinic as I would need a prescription. My medical problem was dealt with quickly and efficiently by the medical staff and I had my prescription within 30 minutes. I would never have received such a service from my GP

Attended walk in

I attended the walk in centre in Huyton. I had fallen off a ladder. As soon as the nurse looked at the computer and saw I had a mental health problem, I felt that she thought that I hadn't really hurt myself. I wish she had a better understanding about mental health.

Nutgrove Villa (Walk in Centre, 5 Boroughs Partnership) 2016-06-28 12:08:59

Bloods

I attended Nutgrove Villa for blood tests. There was only one Phlebotomist working. I arrived at 7.35am and took card 21 and was treated at 8.25am. The service at this time of the morning is for working people. A few patients left before their tests because of the waiting time, needing to go to work and having no breakfast as they have fasted overnight. The 2 chairs need to be in use. The lady who took the blood was excellent but seemed stressed out. (March 2016)

Excellent service and staff

The receptionist was excellent in there approach to my problem. I waited about 10 minutes for a nurse called me in. She was very helpful and treated me with respect, also organised an appointment with my doctor the same morning. The nurse also made an appointment with the physio which was three days later. The physio examined me and agreed with the nurse on my problem and then organised my MRI scan which would be in about two weeks. On Monday the following week I had a phone call from Whiston Hospital saying that they had a cancelation and would I like to come for my MRI scan in an hour, The staff where excellent in explaining the procedure to me and I was out an hour later. Three days later I was in the surgery with my doctor explaining to me the problems I have and changed my medication to manage the pain. The next week I had an appointment with the orthopaedic surgeon who explained in greater detail on what my problem was and the options He had to go forward with my problem who also agreed that the medication was ok, but recommended that I go to the pain clinic. There was problem with the report the physio gave. In his report he said that it was my left leg that my back condition affected, the problem was it was my right leg that was affected, the surgeon was not to pleased with this, because I remarked that this diagnostic would have been dangerous if it was an elderly patient or someone with a mental health problem. My journey from when I was first diagnosed to the surgeon at Whiston was excellent and quick only for the physio at Nutgrove villa to make that mistake.

Podiatry Services (Knowsley, 5BP, 5 Boroughs Partnership) 2016-10-06 08:14:59

Rushed Appointment

I went to the clinic at St Chads and the podiatrist said there were no problems. My foot pain got worse and worse so I went to the doctors a month later and the doctor said I had a verruca. I have now been told I have to have surgery on my foot and am getting triaged for it next Tuesday. I think the podiatrist overlooked this because the time of the slots have been reduced

St Chads Clinic (Walk in Centre, 5 Boroughs Partnership)		2016-03-29 13:04:49
Prescriptions		
Ordered medication from the chemist. Went to collect it three days later, told it had not come through from the doctors and they would ring and ask why. Returned the next day, still not available, they were finally ready 2 days later. Everything was very difficult because I have mental health problems and found it so hard to cope. It was not the chemists fault as they were very kind. It was the fault of the doctor.

# Healthwatch Knowsley

## What is Healthwatch?

Healthwatch is the independent consumer champion created to gather and represent the views of the public on Health and Adult Social Care. We play a part at both a local and national level to make sure that peoples experiences of Health and Adult Social Care are taken into account by both service providers and commissioners.

## How do we make a difference?

- We are part of, and answerable to the community
- We improve local health and adult social care services through community feedback
- We provide information about the care choices the community have
- We talk and listen to people from every part of the community
- We hold services to account for the care they provide

## Why do we do it?

Healthwatch Knowsley has been developed to give the people of Knowsley a stronger voice in influencing and challenging how health and adult social care services are provided within our region.

## What we are responsible for

- Enabling people to share their views and concerns about health and adult social care services in Knowsley
- Helping build a picture of where services are doing well and where they can be improved
- Providing authoritative, evidence based feedback to organisations responsible for commissioning or delivering local health and adult social care services
- Working with Clinical Commissioning Groups and social care providers amongst others to help make sure that services are designed to meet local people's needs.

## Our Values

- **Inclusive** - we put communities first, working with children, young people and adults
- **Influential** - we are responsive, setting the agenda and making change happen
- **Independent** - we act on behalf of consumers, listening carefully then speaking loudly on their behalf
- **Credible** - we value knowledge, seeking information and challenging assumptions with facts
- **Collaborative** - we work in partnership with health and social care organisations to keep the debate positive and we get things done

# Healthwatch Knowsley Feedback Centre

This report has been compiled using the new Healthwatch Knowsley Feedback Centre. This web based tool enables members of the public to rate the services that they use and provides real time analysis of the feedback, enabling early identification of trends and issues.
