About Healthwatch Knowsley

Healthwatch is designed to give people a powerful voice locally and nationally for both Health and Social Care services. In Knowsley, Healthwatch works to help our community to get the best out of their health and social care services. Whether it's improving them today based on feedback from community members or helping to shape services for tomorrow. Healthwatch Knowsley is all about residents voices being able to influence the delivery and design of local services. Not just people who use them, but also for people who may need to access services in the future.

What is Healthwatch?

Healthwatch was created by Part 5 of the Health and Social Care Act 2012 which paved the way for a national body, Healthwatch England, and a local organisation for each local council in England with social care responsibilities, local Healthwatch.

Healthwatch Knowsley was established in April 2013 as the new independent community champion created to gather and represent the views of the Knowsley community. Healthwatch plays a role at both national and local level and makes sure that the views of the public and people who use services are taken into account.

- Plays a clear and distinct role in key local decision making structures (going beyond its formal position on the Health and Wellbeing Board) and contributes to better local decision making;

Mission Statement

“Healthwatch Knowsley will be an effective and clear voice for the community of Knowsley in relation to Health and Social Care Service Provision and Commissioning”

Our Values

- Independent - with established systems of accountability to the wider community.
- Open - transparent and trusted
- Visible and Accessible - Ensuring there is clarity of our purpose and remit.
- Inclusive - Finding ways of working with the many different people and across our community.
- Listening - Every voice counts when it comes to the future of shaping health and social care.
- Learning Organisation - Seeking feedback from community members and stakeholders with a commitment to continuous service improvement.
- Excellence and Credibility - Using good quality intelligence and research

How the report was compiled

To effectively capture the views of community members in terms of the Health and Social Care services Healthwatch ensures that the following routes into community members are maintained.

- Community 'word of mouth' through existing Healthwatch members speaking to community members.
- Roadshow activities
- Community Based Activities / Partner Events / Stands at Provider venues
- Working closely with existing networks and forums in Knowsley
- Community Focus Groups
- Healthwatch Knowsley Coffee Mornings
- Social Media including Facebook/Twitter and Website activities
- Healthwatch Information stands
- Call for evidence and specific surveys

Healthwatch Knowsley are committed to providing quarterly formal reports detailing the views captured from community members to commissioners, service providers, Healthwatch England and the Care Quality Commission and specific interest groups such as NHS England Quality Surveillance Group.

Currently Healthwatch Knowsley is using the Healthwatch England Information Hub to record anonymised patient and community based experiences. Using this database specific reports can be compiled providing information around a service area or trend raised by community members.

Due to the method of capturing information utilised by Healthwatch often comments relating to services are provided anonymously. In some cases the person providing information can be reluctant to provide contact information as it is perceived that in doing so this may affect their future care. With this in mind it may be unclear if these comments have been duplicated via the hospitals own complaints system or PALS data.

Waiting Times in the Emergency Department

There are some reports coming through of delays in the Emergency Department. Healthwatch Knowsley will monitor this in the coming months and work with the Trust to gain an understanding of the issues and solutions to this matter. Comments included:

“The ambulance took me to Aintree at 1pm, had to wait until 6pm to be seen. At 6pm I was sent to an assessment ward and was not seen until about 9pm - long wait.”
