About Healthwatch Knowsley

Healthwatch is designed to give people a powerful voice locally and nationally for both Health and Social Care services. In Knowsley, Healthwatch works to help our community to get the best out of their health and social care services. Whether it's improving them today based on feedback from community members or helping to shape services for tomorrow. Healthwatch Knowsley is all about residents voices being able to influence the delivery and design of local services. Not just people who use them, but also for people who may need to access services in the future.

What is Healthwatch?

Healthwatch was created by Part 5 of the Health and Social Care Act 2012 which paved the way for a national body, Healthwatch England, and a local organisation for each local council in England with social care responsibilities, local Healthwatch.

Healthwatch Knowsley was established in April 2013 as the new independent community champion created to gather and represent the views of the Knowsley community. Healthwatch plays a role at both national and local level and makes sure that the views of the public and people who use services are taken into account.

What we do

Healthwatch Knowsley took over the role of Knowsley Local Involvement Network (LINK) in representing the views of people who use Health and Social Care services.

The feedback captured from the community is used to inform commissioning and service design decisions and also to challenge current service provision in relation to changes required. Healthwatch also has a key role in raising the profile of the good services that are in place.

In addition to this Healthwatch Knowsley provides a signposting service for people who are unsure where to go to access help in relation to Health and Social Care Services. This service also has a role in promoting the choices that are available to community members. A key element of this services is signposting community members, where needed, to the Merseyside and Cheshire Healthwatch Advocacy service to support people who wish to make a complaint about services they have accessed.

Healthwatch Knowsley can also report concerns about the quality of services to Healthwatch England, helping to build a national picture of Health and Social Care satisfaction.

Mission Statement

“Healthwatch Knowsley will be an effective and clear voice for the community of Knowsley in relation to Health and Social Care Service Provision and Commissioning”

Our Values

- Community Led - determining priorities and programmes of work.
- Independent - with established systems of accountability to the wider community.
- Open - transparent and trusted
- Visible and Accessible - Ensuring there is clarity of our purpose and remit.
- Inclusive - Finding ways of working with the many different people and across our community.
- Listening - Every voice counts when it comes to the future of shaping health and social care.
- Learning Organisation - Seeking feedback from community members and stakeholders with a commitment to continuous service improvement.
- Excellence and Credibility - Using good quality intelligence and research

How this report was compiled

To effectively capture the views of community members in terms of the Health and Social Care services Healthwatch ensures that the following routes into community members are maintained.

- Community 'word of mouth' through existing Healthwatch members speaking to community members.
- Roadshow activities
- Community Based Activities / Partner Events / Stands at Provider venues
- Working closely with existing networks and forums in Knowsley
- Community Focus Groups
- Healthwatch Knowsley Coffee Mornings
- Social Media including Facebook/Twitter and Website activities
- Healthwatch Information stands
- Call for evidence and specific surveys

Healthwatch Knowsley are committed to providing quarterly formal reports detailing the views captured from community members to commissioners, service providers, Healthwatch England and the Care Quality Commission and specific interest groups such as NHS England Quality Surveillance Group.

Currently Healthwatch Knowsley is using the Healthwatch England Information Hub to record anonymised patient and community based experiences. Using this database specific reports can be compiled providing information around a service area or trend raised by community members.

Due to the method of capturing information utilised by Healthwatch often comments relating to services are provided anonymously. In some cases the person providing information can be reluctant to provide contact information as it is perceived that in doing so this may affect their future care. With this in mind it may be unclear if these comments have been duplicated via the hospitals own complaints system or PALS data.

Have YOUR Say!
Let us have your feedback on local health and social care services

YOUR VIEWS COUNT

We would like you to tell us what's going on in health and social care services where you live. As an independent organisation we are able to pass details of your experiences to health and social care providers, helping to get the best services for the whole community.

Summary of Comments

During the period for which the report relates 24 comments have been collated, which contain a combination of positive and negative comments. These have been captured through direct patient experience feedback captured on the Healthwatch Knowsley patient feedback for and through a hospital specific survey. This survey asks respondents* to specifically score the hospital in the following areas, and was completed by 17 respondents:

Respondents were asked in what capacity they had visited the hospital and were given the options of:

- Inpatient
- Outpatient
- A&E
- Day Case
- Visiting

*It should be noted that not all respondents completed the entire scoring sheet

Healthwatch Knowsley are pleased to note the following areas of good practice

- Satisfaction levels with the Trust are currently good with 63% of respondents rating their visit either Exceptional or Exceeding Requirements.

Recommendations

- **Waiting times** There are still reports of long waits and cancelled operations. A policy should be put in place to ensure that appointments are not repeatedly cancelled See comments: KNO9507 (21), KNO10649 (21)
- **Staff Attitudes** Although 75% of people rated the Trusts either exceptional or exceeding their requirements, there are still reports of some patients feeling that the attitude of the staff did not meet expectations All patients should be treated in a manner that makes them feel comfortable during their visit or stay. See comments KNO5739 (17), KNO14821 (17), KNO5632 (20), KNO10649 (21).

Trust Data Healthwatch strongly recommend that this report is viewed alongside the Trusts own Patient Experience and Friends and Family Data to ensure that the three sources of information are triangulated and acted upon.

Provider Details		Aintree University Hospital NHS Foundation Trust
Where Collected:	Correspondence	
Service Type	Accident and Emergency Outpatients	
Comments	My initial experience of A&E was excellent and my care on the ward too. However, outpatients, was very disappointing. The Registrar didn't know why I was there and had no test results and couldn't get them on the computer then made no attempt to get them. He just said I would have to go back. I had to take time off work for this and was very unhappy.

Where Collected:	Correspondence	
Service Type	Inpatient Care Outpatients	
Comments	I was admitted on 09.12.12 for a gall bladder operation - they perforated my bowel and stitched me back up. It took them 5 days to diagnose Peritonitis and septicaemia which resulted in emergency surgery, 8 days in intensive care and 3 months in hospital. I spent time on ward 3, the staff attitude was appalling. I was left without dressings being changed due to staff shortages. I was left to wait for lengthy periods without pain relief. On 22.12.12, I was moved to ward 4. Here the nursing care was excellent and helped my recovery which, on several occasions was very poor. The difference in the quality of care between ward 3 and 4 was very obvious. The attitude of staff was blaringly obvious from very poor (ward 3) to excellent (ward 4). My family were not notified when I had emergency surgery and was transferred to intensive care.

Comments	I recently had a hip replacement. I received excellent care from the Occupational Health Service, both before and after my operation, The staff at the hospital were really good. The ward was clean, food could have been better. Nurses came out to give Flu jabs from the surgery. My husband had the same operation as me and had the same treatment both in hospital and at home.

Appendix 1: Comments

Provider Details		Aintree University Hospital NHS Foundation Trust
Where Collected:	Community group	
Service Type	Outpatients	
Comments	Spot on , although I did see a junior doctor rather than a specialist who was off ill. I had to explain about my condition more than usual. I was a bit disappointed that I couldn't speak to a consultant about my care but due to follow up shortly.

Service Type	Outpatients	
Comments	It was a great experience. I was seen straight away, everything was explained to me. The staff were helpful and friendly - a perfect hospital appointment in every way. The only problem I find is the travelling to and from the hospital, the parking situation and the prices in the WRVS shop. The clinical facilities and staff are great, it is the facilities at the hospital which are in dire need of change.

Appendix 1: Comments

Provider Details		Aintree University Hospital NHS Foundation Trust
Where Collected:	Focus Group	
Service Type	Outpatients	
Comments	I go for an injection in my eyes. Eventually I will go blind. Very often my appointments are really early so I can't use my bus pass (as this has to be after a certain time). I can only get the number 20, this doesn't take me to the hospital and is a long walk. I have heart problems so I regularly have to get taxi's, this is expensive. Everything is ok with the hospital.

Comments	The first thing everybody needs when arriving at hospital as a patient is reassurance. This is sadly lacking as I suspect it is in most hospitals. On arriving, I was told which was my bed and left to it. The only time any of the staff spoke to me was usually when they wanted to take my blood pressure and temperature. I was not asked how I was feeling or if there was anything I needed which I think amounts to a lack of basic nursing. This is not a criticism of the nursing staff but of the system that doesn't allow or encourage basic nursing. On 2 occasions, the wrong medication was given to me. I developed a scalp problem during surgery. What I presumed was a junior doctor came, looked at my scalp and told me that he didn't know what it was. My GP prescribed some treatment. I don't want to think about the food. Although I don't think I could have been in better hands than my consultant, my overall experience of being a patient in this hospital was not very reassuring.

Comments	Before my operation I was given a zimmer frame and told to learn how to hop (no chance). I had an operation on my left foot and was told to go home the same day. I didn't have any bed downstairs, I had to borrow one which took 3 days. I had a cast on my leg for 12 weeks. when I was confined to my bed, my toenails were very long. I phoned the Chiropodist and was told that due to short staff the nearest appointment was 4th November, by then I had had my cast removed.

Appendix 1: Comments

Provider Details		Aintree University Hospital NHS Foundation Trust
Where Collected:	Correspondence	
Service Type	Outpatients	
Comments	<p>Mum attended DVT clinic on 17.10.13 via MAU as her right leg had swollen to twice its size. Her GP sent her to MAU asking via letter for an x-ray on right leg as she had recently (August 2013) had an extra plate fitted to end of hip following a break in her right femur. We sat on a bed in MAU from 1.20pm - 7pm when we went to x-ray, then to see DVT doctor who said they were unable to do doplar scan as the unit was closed. We left MAU at 8.30pm. We returned for appointment at 1pm on 18.10.13 then waited until 7.45pm to see orthopaedic doctor re x-ray and scan results. We only got to see doctor when I asked to see the night matron who organised it within 10 minutes. Mum has vascular dementia and was very distressed by these visits. Attended scan on 25.10.13 when mum was upset at waiting, I asked if we could go in on time, the receptionist said we would have to wait our turn despite me informing her that mum was very upset. Letter for appointment on 25.10 arrived on 26.10.</p>

Comments	I am a patient of Mr D Clark at Ophthalmology clinic. This year they changed the way that they run the Glaucoma department. Instead of having the eye test done and then waiting to see the doctor, which I have waited 2 hours in the past. I had an appointment on 2nd October 2013. I arrive at 9.15am and had all the eye tests done and did not have to see a doctor. I was on my way home at 9.50am. They sent the results to me. I don't have to see the doctor until June 2014. I think this is fantastic so please give them all a big pat on the back.
