When you are offered the Covid vaccine will you have it?

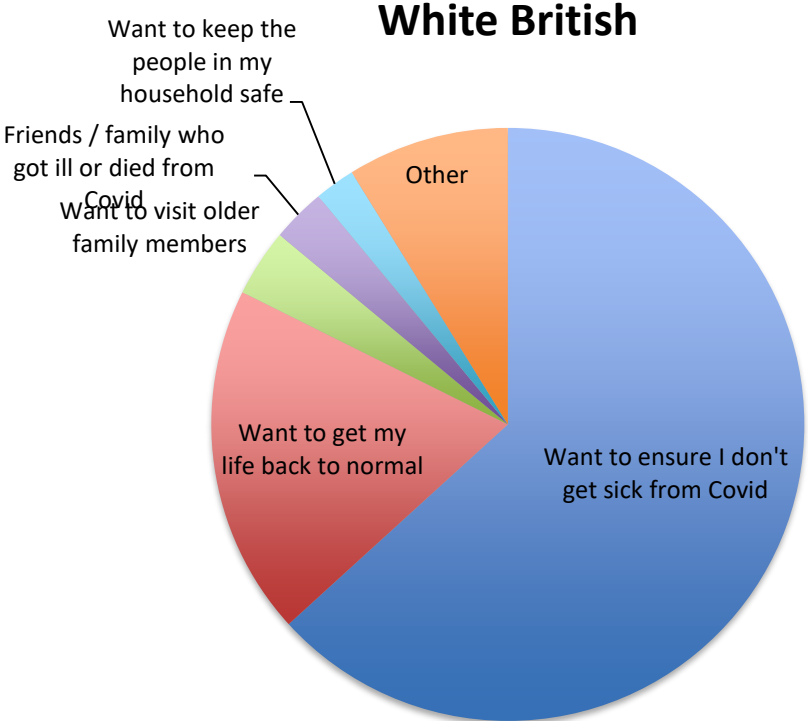

Reasons for wanting the Covid vaccine?

Black

Reasons for wanting the Covid vaccine?

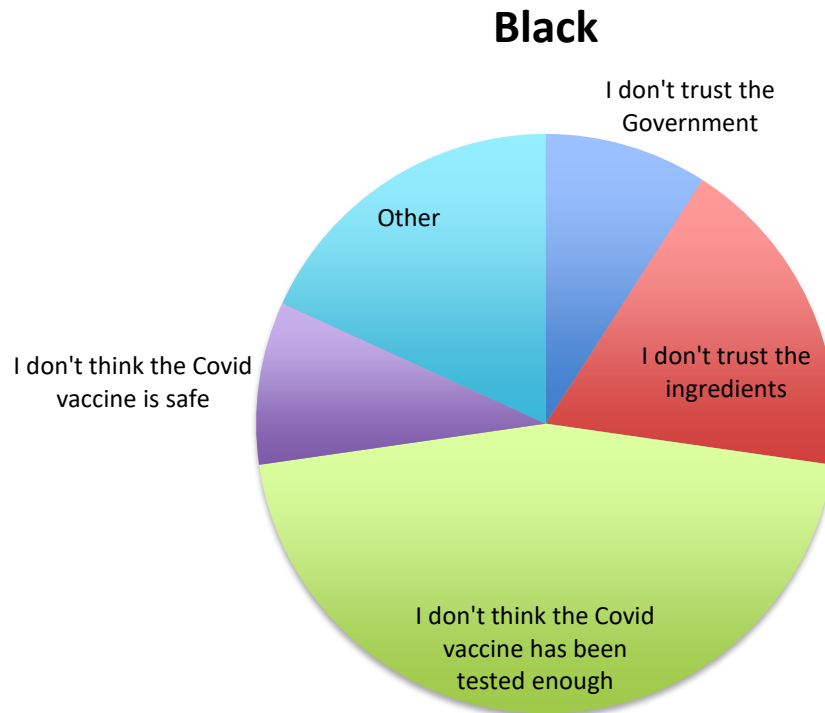

Reasons for wanting the Covid vaccine?

Other ethnic minorities

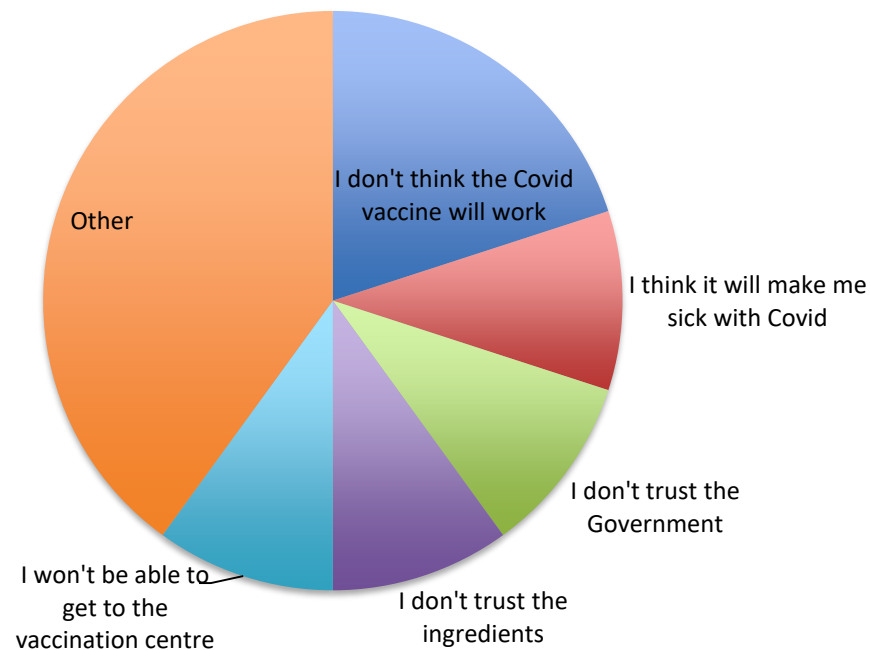

Concerns / worries about the Covid vaccine

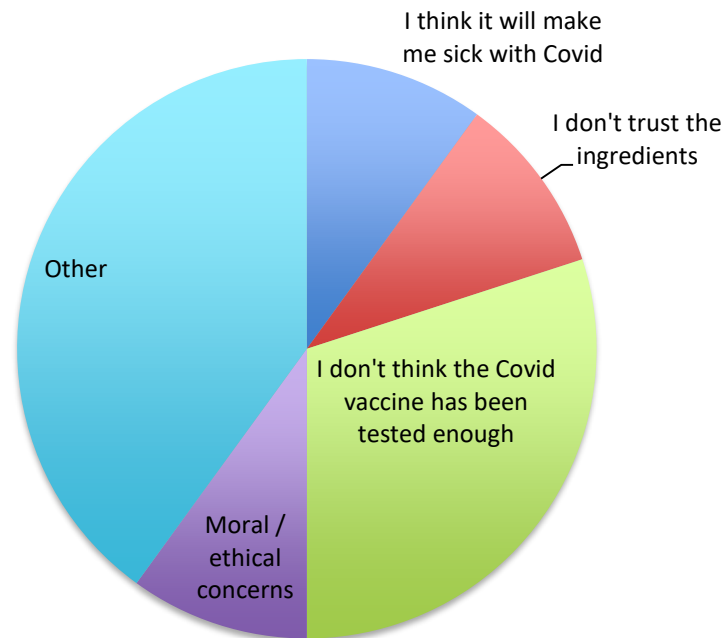

Concerns / worries about the Covid vaccine

White British

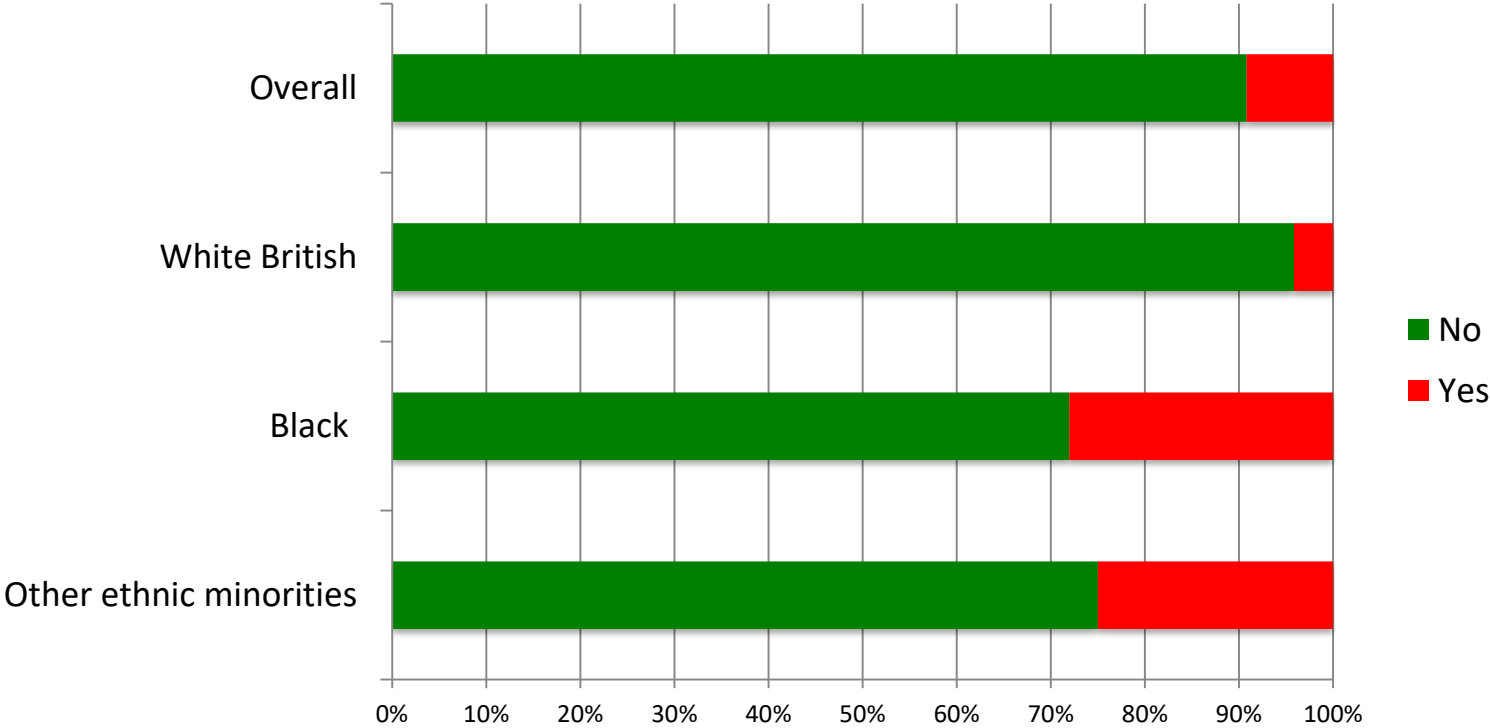

Concerns / worries about the Covid vaccine

Other ethnic minorities

Have you changed your mind about having the Covid vaccine in the last couple of months?

Reasons for change of mind

Did not appear to be a difference between ethnicities
(although this could be explored further)

Positive

- Desire not to get sick / die from Covid
- Keeping household and family safe
- Keeping general public safe
- Getting back to a normal life
- Desire to avoid restrictions
- More information available now
- Family pressure
- High numbers of cases, hospitalisations, deaths
- Only way to control virus
- Had to have it for work

Reasons for change of mind

Did not appear to be a difference between ethnicities
(although this could be explored further)

Concerns

- Different vaccines - are some “better” than others?
- Delays to second jab eroding confidence
- Not enough testing
- Vaccine safety
- Side effects
- Not enough information
- “Waiting”
- Already had Covid, unsure whether they want / need a vaccine
- Do not trust Government
