"I can't seem to see the same doctor that I would like to see regardless of when I book. I don't think I have seen the same doctor in the last 5 months and I come quite often for appointments."

Our action: Signposted to NHS Independent Complaints Advocacy.

"I filled out a medical form this morning. They want me to book an appointment with a GP. However, the earliest appointment I can get is in 4 weeks time?! My condition may be serious?!"

Our action: Feedback posted on our Feedback Centre is shared with the relevant practice for them to review and action.

"We are here for an orthodontics appointment for my daughter. Travelled by car today as it is 'easier'. My daughter has a blue badge but there aren't always enough spaces near the entrance for blue badge holders. Public transport might be available but it wouldn't suit my daughters needs, we have to come in the car."

Our action: Feedback was received on an engagement. This feedback was logged to share in this report and supports the rationale for our current 'Transport Project'.
